## Career Objective

I am seeking a challenging position as a developer where I can utilize my technical skills, enhance my coding abilities, and contribute to the growth of the organization. With my academic background in computer science, I aspire to work alongside experienced developers to develop innovative software solutions and contribute to the success of a progressive organization.

## Project Experience

- **Title:** Proctored Web Conference (This project is made up for our college).
- **Description:** The project aims to design and implement a prototype for teachers to monitor students in online web conferences and prevent distractions by locking the application and notifying the host if the student attempts to view other applications.
